NamUs is a national online repository and resource center for locating and identifying missing persons and unidentified decedents, as well as helping medical examiners and coroners locate next of kin for unclaimed person cases. NamUs is funded by the National Institute of Justice (NIJ) and managed through a contract by RTI International.

For more information, please visit www.NamUs.nij.ojp.gov

This series of reports contains information only on individuals who have been reported as missing, unidentified, or unclaimed to NamUs; it does not include information on all missing, unidentified, and unclaimed persons nationwide. Missing, unidentified, and unclaimed person status is reported to NamUs by local, state, tribal, or federal law enforcement, or it may be self-reported by family members. This report contains information from published, unpublished, and archived NamUs cases. Published cases are those that are publicly viewable within the database; unpublished cases are those that have not received law enforcement approval for public dissemination but still contain verifiable case information in the database; and archived cases are those that have been deemed resolved by the investigating agency. Therefore, the following report may not be reflective of the entirety of the issues surrounding missing, unidentified, and unclaimed persons in the United States and its territories.

Additionally, this report contains information only on individuals who have been reported missing to NamUs and whose cases include indication of enrollment or affiliation with state- or federally-recognized tribes; it does not include all American Indian and Alaska Native missing persons. Tribal enrollment and affiliation information is reported to NamUs by local, state, tribal, or federal law enforcement, or it may be reported by family members of missing persons. Data fields to capture tribal enrollment and affiliation information were added to NamUs in December 2018 with no requirement for investigating agencies to add this information retroactively; therefore, tribal data may not yet be entered into NamUs for some missing persons.
