327 CCA Cases Impacted*

The Cold Case Advisory (CCA) team is a multidisciplinary group of investigative professionals consisting of former law enforcement, medicolegal death investigators, DNA specialists, analysts, and forensic scientists. They provide agencies with a technical assessment of their cold cases to ensure all forensic and investigative avenues have been explored. Their support culminates in a Multidisciplinary Team (MDT) presentation where they share their findings and suggestions with the investigating agencies.

This series of reports contains information only on individuals who have been reported as missing, unidentified, or unclaimed to NamUs; it does not include information on all missing, unidentified, and unclaimed persons nationwide. Missing, unidentified, and unclaimed person status is reported to NamUs by local, state, tribal, or federal law enforcement, or it may be self-reported by family members. This report contains information from published, unpublished, and archived NamUs cases. Published cases are those that are publicly viewable within the database; unpublished cases are those that have not received law enforcement approval for public dissemination but still contain verifiable case information in the database; and archived cases are those that have been deemed resolved by the investigating agency. Therefore, the following report may not be reflective of the entirety of the issues surrounding missing, unidentified, and unclaimed persons in the United States and its territories.

Additionally, this report contains information only on individuals who have been reported missing to NamUs and whose race/ethnicity is selected as American Indian/Alaska Native singularly or in any combination within Missing or Unclaimed Person entries. Unidentified human remains are classified as American Indian/Alaska native when the estimated race/ethnicity indicates this option singularly or in combination with up to three other race/ethnicities selected. Race/ethnicity information is reported to NamUs by local, state, tribal, or federal law enforcement, or it may be reported by family members of missing persons.

**CCA Cases Impacted includes additional biometrics obtained, updated status of record availability, or cases archived through CCA team outreach.*
